

Serving Every Ohioan

SEO Consortium Users Group Meeting

Breakout Session Descriptions

10:45—11:45 a.m. Small Group Sessions	1:30—2:30 p.m. Small Group Sessions
<p>Grand Ballroom 1</p> <p>What can the State Library do for you? <i>State Library of Ohio Staff</i></p> <p>Whether you are embarking on a long-range plan, preparing to revitalize an under-utilized space, collecting data to support a new program, seeking ways to collaborate with area organizations and businesses, or... Whatever the question or need, State Library staff are available to assist you and provide guidance and additional resources. At this session you will have the opportunity to meet several of the Library Development Consultants. They will share a bit about their areas of expertise, current projects and assistance they can provide to you.</p>	<p>Grand Ballroom 1</p> <p>Ohio Digital Network on the Horizon <i>State Library of Ohio Staff</i></p> <p>You've heard the rumor that a Digital Public Library of America (DPLA) Service Hub is planned for Ohio. The Ohio Digital Network is a reality! In this session you will learn more about the Ohio Digital Network -- where we are, next steps and how you can be involved now and in the future.</p>
<p>Grand Ballroom 2</p> <p>Blue Cloud Cataloging <i>Berit Nelson, SirsiDynix</i></p> <p>Float across the screen as we explore BlueCloud Cataloging. Join us as we demonstrate one-click record matching across multiple sources, side-by-side record view for quick comparison, bibliographic templates for quick bibliographic record creation, and more.</p>	<p>Grand Ballroom 2</p> <p>BlueCloud Analytics <i>Janice Bond, Nicole Brown and Brenda Michel</i></p> <p>Eventually replacing Director's Station, BlueCloud Analytics will be the new reporting tool for Symphony. Blue Cloud Analytics is a web-based program that will offer you a variety of pre-made reports that will be available for many different categories. These reports are very easy to use and will help you gather needed statistics for your items and your library.</p>
<p>Grand Ballroom 3</p> <p>Library Marketing <i>Misty Janusik and Marsha McDevitt-Stredney</i></p> <p>Join our marketing roundtable. From vendor services to targeting audiences, share your successes as well as failures. SEO will also present a new collaborative resource that can be used to market services such as NoveList, Ohio Web Library, and the Ohio Digital Library. Marsha McDevitt-Stredney, Public Information Officer Director, Marketing & Communications will also be sharing valuable tips for reaching specific audiences.</p>	<p>Grand Ballroom 3</p> <p>LIBKI Kiosk Management System and Open Source Self Check <i>Jessica Dooley and Jay Miley</i></p> <p>Are self-checkout and computer reservation beyond your budget? Not anymore! Free, open source solutions for both services are available, and successfully integrate with Symphony. Jay Miley of the Mercer County District Library will discuss how to implement Open Source Self Checkout, and Jessica Dooley of the Adams County Public Library will discuss using Libki for public computer reservation. We'll present an overview of how these solutions work, discuss deploying open source software with Symphony, and share resources to help implement these solutions in your library, for free.</p>
<p>Grand Ballroom 4</p> <p>Why You Need A Makerspace <i>Matt Motes and Michael Postlethwait</i></p> <p>Garner some ideas for creating your library makerspace featuring 3D Printers and Laser Engravers. These innovative technologies are changing how libraries can impact your community.</p>	<p>Grand Ballroom 4</p> <p>OPLIN: More than Just the Internet <i>Mandy Knapp, Digital Resources Manager</i></p> <p>In this session, learn about the services OPLIN offers to public libraries, including databases, text notifications, filtering and more.</p>
<p>Grand Ballroom 1, 2, 3, & 4 2:45-4:15 SEO 2017 Deliverables (Full Group Session)</p> <p>Join SEO staff as they discuss new products and features that will be coming to your library in 2017.</p>
