Security

Who is responsible for the security of your library's network?

What can you do to improve security now?

Deploy Cisco Umbrella in your library's network

CISCO
Umbrella

Secure your network perimeter with a firewall

Install

uBlock Origin

browser addon

Create long, unique passwords for every account
Use a password manager
Enable multi-factor authentication

Keep an inventory
Install updates regularly
Have a backup solution

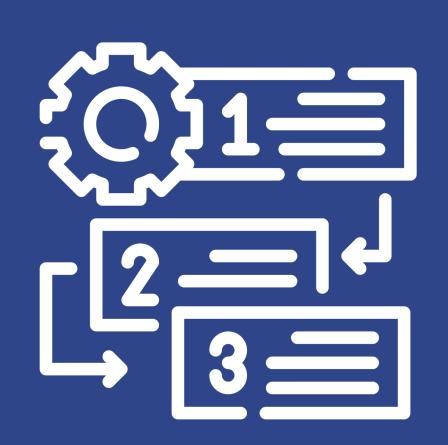

Ensure patron data isn't saved on library devices

Ensure backups encrypt sensitive data

Review records retention policy

Plan for disaster recovery
Review the plan regularly
Store the plan on paper
