# SEO Library Consortium Year In Review

## SEO Director's Meeting

The SEO Directors Day was held at the Nationwide Conference Center in Lewis Center, OH prior to the full day user's meeting. There were 76 SEO Director's attending. SirsiDynix and Zepheria staff presented the BLUEcloud Visibility product for linked data as well as demonstrations of the latest BLUEcloud products. Following the presentations, the annual business meeting was held.

## SEO User's Group Meeting

The SEO Users Group Meeting was held at the Nationwide Conference Center in Lewis Center, OH. There were over 200-member library staff who took advantage of this all-day event. SEO staff as well as the State Library and OPLIN staff present a full day of breakout sessions allowing directors and staff to attend and experience the newest and most recent services available for their libraries.

## Symphony Upgrade

In March 2017, SEO upgraded Symphony to version 3.5.2 which offered many enhancements, bug fixes, and security updates,

## BLUEcloud Analytics

In June 2017, SEO delivered the BLUEcloud Analytics statistical reporting software to the consortium membership. BCA is the updated replacement for the current Director's Station software. SEO staff prepared and tested many reports for the unveiling of BCA to include specific prompts and filters for the member library reporting selections. Member libraries provided testing and feedback as well during the development of the reports and functionality for a successful transition.

## New Library System

In August 24, 2017, the Ashtabula County District Library joined the SEO Consortium.

## Conference Attendance

SEO staff attended several conferences including COSUGI (Customers of SirsiDynix Users Group), Digipalooza (OverDrive Users Group), OCLC Resource Sharing Conference and the Ohio Talking Books Sublending Training.

## 6,480 Total Support Tickets
